

CHIBUOKE HANSON EZEGBU

GRADUATE TRAINEE ENGINEER| ELECTRONIC ENGINEERING

PROFESSIONAL SUMMARY

A motivated and detail-oriented graduate of Electronic Engineering from the University of Port Harcourt with technical and analytical skills. Skilled in electrical installation, circuit design, and basic programming. Passionate about applying engineering principles and innovative technologies to solve real-world electrical and electronic problems. Currently seeking a graduate trainee engineer opportunity to develop practical experience in electrical systems and IoT-based solutions.

Address: No. 9 Bori street, Borikiri Port Harcourt.

PROJECT & TRAINING EXPERIENCE

Industrial Training – Electrical Unit, Works and Services Department, University of Port Harcourt

August 2024 – November 2024

- Participated in electrical installation, maintenance, and fault detection across university campuses.
- Assisted in transformer operations and load management.
- Carried out electrical servicing, hostel disconnections, and faculty building maintenance.
- Gained hands-on experience in wiring, testing, and power system safety procedures.

Undergraduate Project – Smart Extension Box with IoT Integration

2025

- Designed and simulated a smart extension box capable of monitoring voltage, current, power, and frequency.
- Implemented IoT features using the ESP32 microcontroller for remote monitoring.
- Utilized PZEM-004T sensor and relay modules for power measurement and control.

- Developed simulation using Proteus software.

ACADEMIC HISTORY

University of Port Harcourt | 2019 - 2025

Bachelor of Engineering in Electronic Engineering, department of Electrical/ Electronic Engineering

Government Comprehensive Secondary School, Borikiri- Port Harcourt | 2014-2017

SSCE

CORE SKILLS

- Basic electrical wiring and installation
- Circuit design and analysis
- Basic programming (HTML, CSS)
- Microsoft Office and Google Workspace tools
- IoT integration and sensor interfacing
- Strong teamwork and communication skills
- Python Programming (Beginner Level)

PERSONAL ATTRIBUTES

- Analytical and innovative thinker
- Fast learner with technical adaptability
- Reliable, self-motivated, and result-driven
- Excellent attention to detail and accuracy

SCHOLARSHIP AND AWARD

Academic icon award (SEEES) **2025**

Award of excellence (SEEES) **2025**

MTN Foundation Award **2023**

Nyong Scholarship Award Scheme **2022**

Prof. Owen T. Adikibi Scholarship Foundation (POTAF) **2019**

EXTRACURRICULAR ACTIVITIES

Society of Electrical/Electronic Engineering Students (SEEES) Uniport

Nigerian Universities Engineering Students Association (NUESA) Uniport

CERTIFICATIONS

Well Operation Crew Resource Management (CRM)
